

Recommendation Letter

September, 2011

To Whom It May Concern:

I have known Babak for about 8 years. He has performed for us on many occasions and has presented clinics as well. Babak's personality and engaging smile, really connects with the audience whether he's performing or presenting a lecture. I have observed him in several concert situations, classroom presentations and in clinics. He communicates his enthusiasm and passion to his audience. A very talented young man.
